

Data Agenda of a Tech Startup

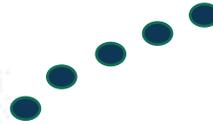

Albert Wong
Chief Executive Officer
Hong Kong Science and Technology Parks Corporation

9 May 2019

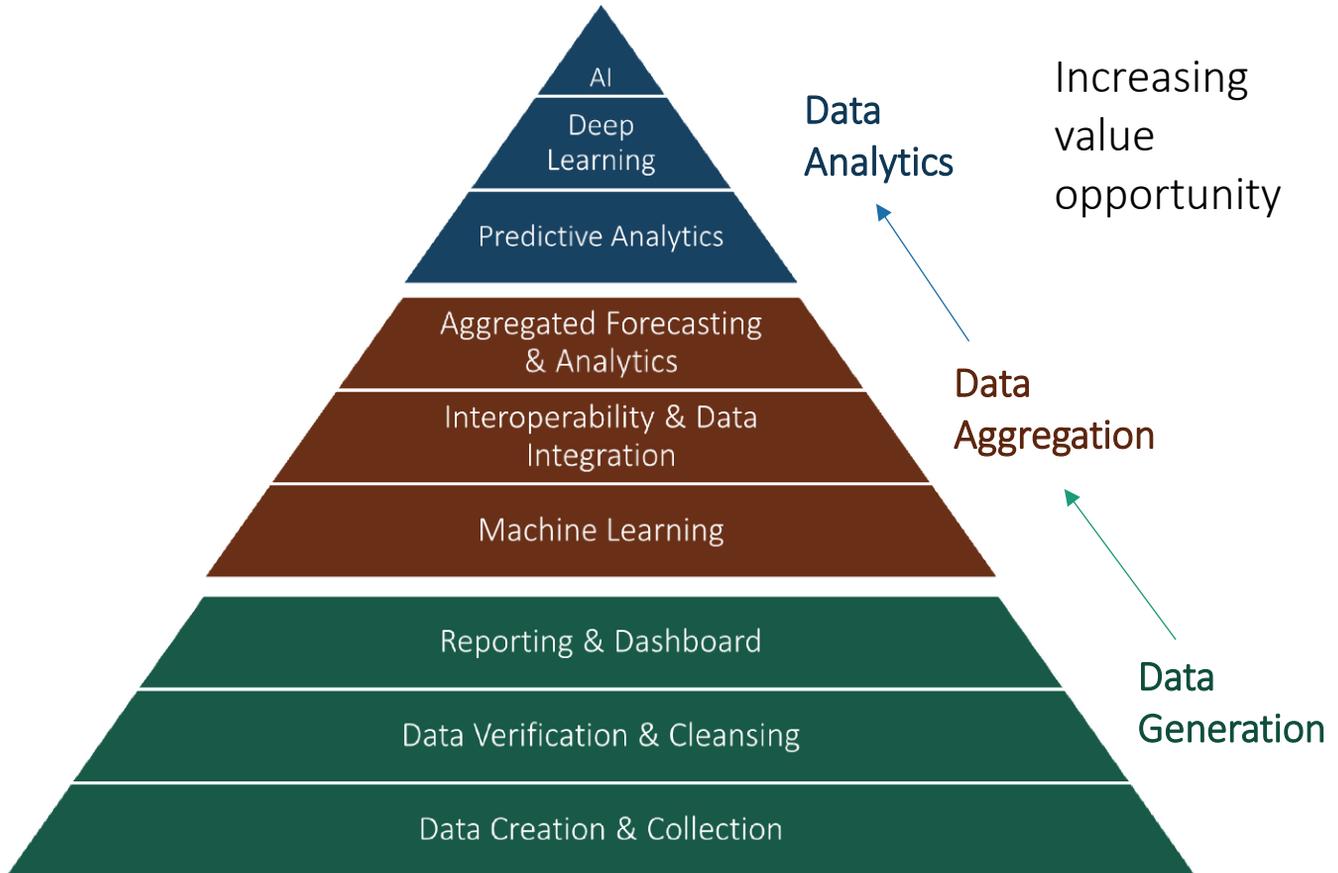

What Matters to a Tech Startup

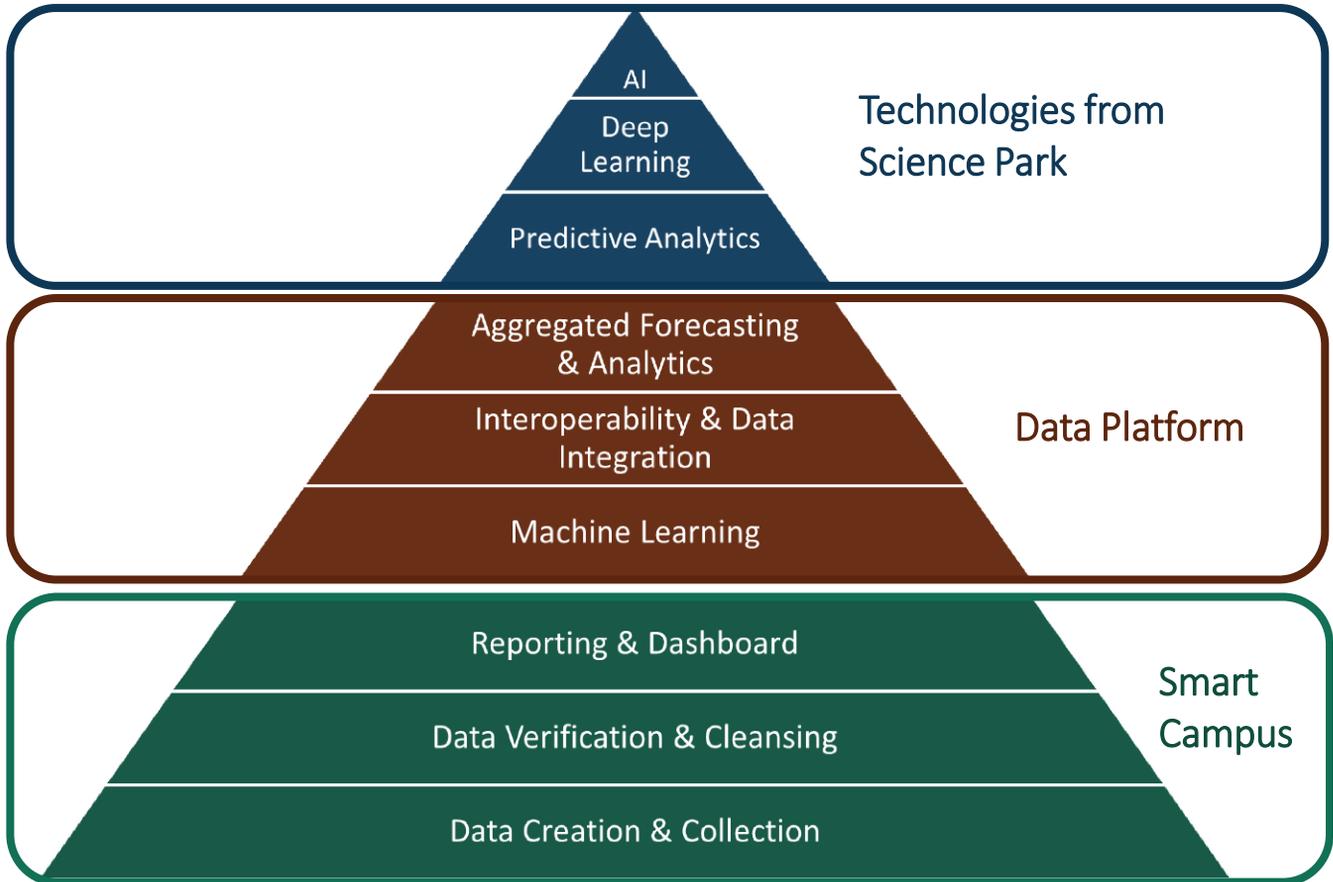

...and DATA is a key differentiator

Data Pyramid of Value

Data Initiatives from Hong Kong Science Park

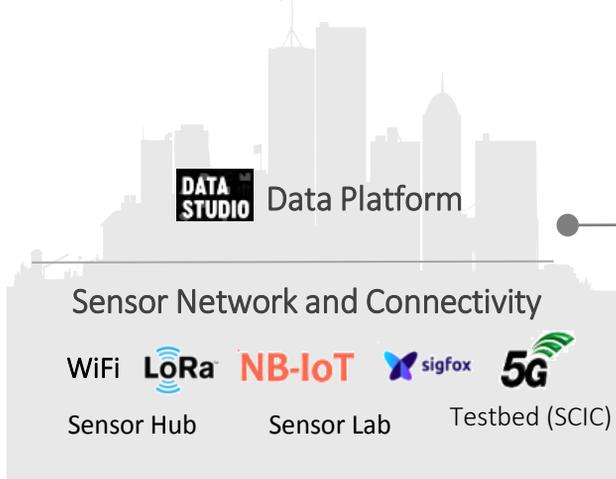

Smart Campus – A Living Lab Environment

Innovation ▶ Creativity ▶ Co-creation ▶ Experimentation ▶ Entrepreneurship

Smart Region Infrastructure

Smart City Themed Applications

To generate and analyse data so as to ride the wave of Internet of Things (IoT) and enable smart solutions

to Create a Seamless & Integrated Experience

Smart Campus Project Governance

- Adoption of the Ethical Accountability Framework

Undertaking

Data Impact Assessment

Share Data @Data Studio

Data Review

Principles:

- I. Purpose of the activity,
- II. A full understanding of the data, its use and parties involved,
- III. Impact to parties and in particular individuals, and
- IV. Whether an appropriate balance of benefits and mitigated risks supports the data-processing activity.

- Transparent
- Benefits the data community

- Auditable & traceable

Data Impact Assessment for Service Provider

1) General Information

1.1	Project Name	
1.2	Company	
1.4	Purpose of Project	
1.5	Data Owner	
1.6	Emergency Contact of Data Owner	
1.7	Data Collection Start Date	

2) Purpose and Manner of Collection

2.1	Please provide the justification of the data activity	
2.2	What specific types of data will be collected?	
2.3	What is the sources of data?	
2.4	Is the data identifiable to a person? If yes: Is the data anonymous? what is the anonymity process?	

3) Accuracy and Duration of Retention

	How long will the data be retained?	
3.1	Guidance: Data shall be properly erased when the computing resources are de-provisioned or retention period passed.	
3.2	How will the data be destroyed / deleted after retention period passed?	
3.3	How will the data collected or derived from the system be checked for accuracy?	

4) Processing

4.1	How will the data be collected and stored?	
4.2	Please describe all the uses for the data	
4.3	Who will have access to the data?	
4.4	What technical safeguards will be implemented to prevent unauthorized access?	
4.5	What technical safeguards will be implemented to prevent accidental loss of data (e.g. encryption and delinking of data)?	
4.6	What steps to ensure that a person be informed of the purpose and the kind of data being collected?	
4.7	Describe what privacy training is provided to operators relevant to the functionality of the system.	
4.8	Will the data be shared with other external organisations?	

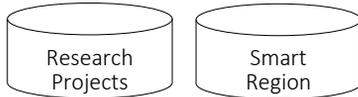

HKSTP Data Platform

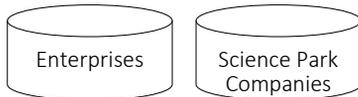

Objective Becoming the Data Hub to spawn innovation and manage data exchange between entities

Data Sources

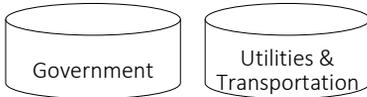

Data we can generate:

Data acquisition thru exchange:

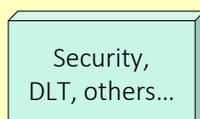

Open Data we can add value:

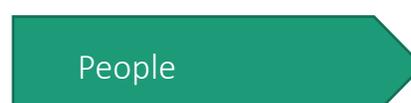

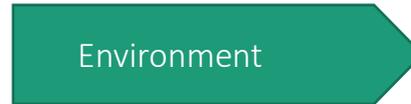

Data Studio Programme

Tech Focus

Enabled by Data Analytics Partners

Smart City Initiatives

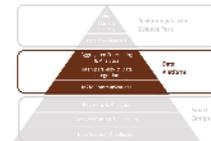

Smart Campus Initiatives

Outcomes

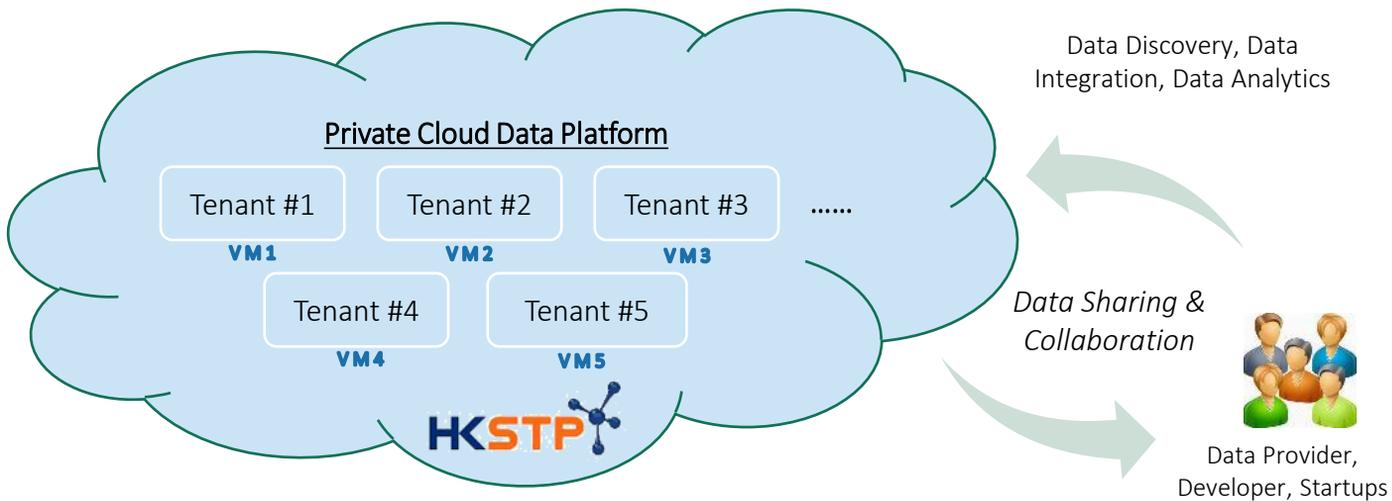

- Trusted sharing and purposeful use of data to accelerate innovation
- Attract talents and companies on AI, Big data, Fintech, Health Informatics, etc.

Private Cloud Data Infrastructure

Why Private?

Data Governance, Development & Testing, Security & Protection

- Infrastructure management
- 7x24 call center service and monitoring of private cloud infrastructure
- Storage/VM provisioning

Recent Data-driven Innovation from SP companies

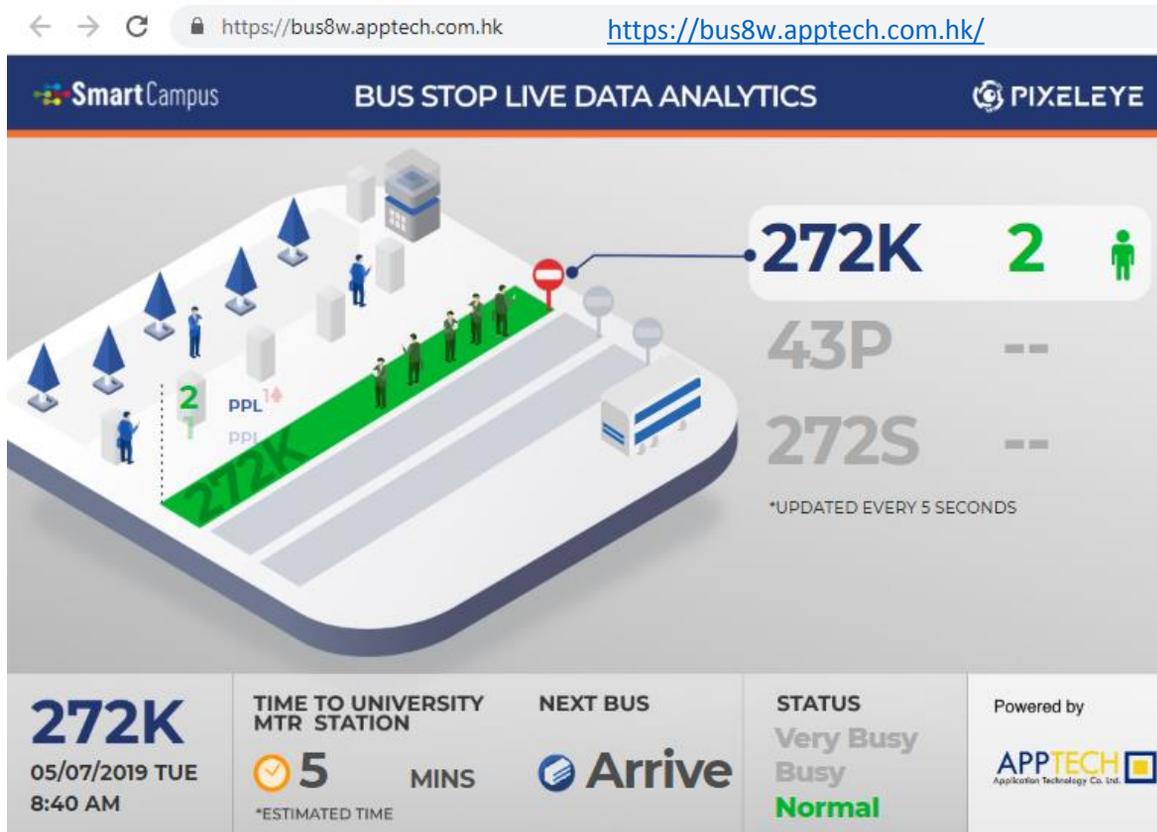

Digital Science Park overlay with energy and temperature data

Some Recent Data-driven Innovation from SP Companies

Main bus-stop video analytics of queue (faces are masked at the edge)

Some Recent Smart Campus Trials backed by Data

Unmanned Shop (T-Shop & Lab)

- ✓ Cashless payment: Octopus, WeChat pay, QR code
- ✓ Facial recognition: i) automated gate at entrance, ii) video surveillance for security monitoring
- ✓ Item scanning: RFID, Barcode
- ✓ Decoration: Digital Film Player
- ✓ Ad-hoc promotion: Redemption program

Smart Lamp Pole

- ✓ Traffic Flow Monitoring
- ✓ Automatically turn on/off the lights or set an appropriate light level for illuminating streets
- ✓ Remote control the LED's dimming level
- ✓ Surveillance Camera (illegal parking)

ASD Test Track

- ✓ Individual monitoring platform to record ASD tests and experiments.
- ✓ Non-interrupted video as the master records.
- ✓ Data Analytic tools for generating testing reports
- ✓ Number of trials, Duration of Trail, Any Fault cases

5G Trial

- ✓ Test 28GHz spectrum in collaboration with CMHK and ASTRI
- ✓ Test trail the mid-band spectrum, with an objective to evaluate the potential of reduction of the Restricted Zone

Ice-Cream Robot

- ✓ Comprises IOT sensors and IC control system
 - Customer driven customization of ice-cream flavours and toppings
 - Delivery customized message with associated QR Code.
- ✓ Payment model: Octopus card and QR Code

Real-time Intermodal Transport Status

- ✓ Leverage AI object detection by surveillance cameras positioned with different angles
- ✓ Real time detect and count both number of car and people in pixel-level for higher accuracy

Data Studio – The HKSTP Data Gateway

- 341 data sets
- 57 publishers
- 1,188 developers

Data Studio provides a single point of reference of shared data from Smart Campus and Open APIs offered by HKMA and >15 banks:

<http://datastudio.hkstp.org>

The screenshot shows the HKSTP Data Studio website. At the top, there is a navigation bar with links for DATA, FINTECH, DEVELOPERS, DATA PUBLISHERS, BLOG, CONTACT US, ABOUT, and FAQ. Below the navigation bar is a large banner with the text "DATASET LIBRARY" and a search bar labeled "TYPE KEYWORD HERE" with a "SEARCH NOW" button. Underneath the search bar, there are several category filters: SHOW ALL, ECONOMY - (28), EDUCATION - (16), ENVIRONMENT - (24), FINANCE - (102), HEALTH - (27), INFRASTRUCTURE - (13), SOCIETY - (106), TECHNOLOGY - (45), TRANSPORT - (32). At the bottom, there are three featured data sets: "Electric Charging Locations" (with an image of a blue car), "HKSTP Energy Data - Daily Electricity Consumption" (with an image of a power plant), and "Peak Traffic Record 19 Mar" (with an image of a traffic sign).

The screenshot shows the HKSTP Data Studio website. At the top, there is a navigation bar with links for HKSTP DATA STUDIO, FINTECH, and ABOUT. Below the navigation bar is a search bar labeled "Looking for financial dataset?" with a "SEARCH NOW" button. Underneath the search bar, there is a section titled "OVERVIEW" with six data set cards: "INSURANCE" (Retrieve travel insurance product details), "LOANS" (Retrieve unsecured loan product details), "INSURANCE" (Retrieve general insurance product details list), "LOANS" (Retrieve secured loan product details list), "DEPOSITS" (Retrieve foreign currency account product details list), and "INSURANCE" (Retrieve home insurance product details). At the bottom, there is a section titled "BROWSE BY INSTITUTION" with four logos: Fubon Bank (富邦銀行), DAH SING BANK (大新銀行), 上海商業儲蓄銀行 (SHANGHAI COMMERCIAL BANK), and 交通銀行 (COMMERCIAL BANK OF CHINA).

Some of our Recent Data Activities

- Smart City Hackathon Hong Kong 2018 (1-2 Sep 2018)

- Key collaborator: Global Shapers, an initiative of World Economic Forum
- Three themes: Smart Living, Smart Mobility, Smart Environment
- Participants are required to create data innovation via Data Studio to create solutions based on Big data, IoT or Blockchain

Winners Highlights:

- Smart Living: Demonstration of use of Blockchain to trace medicine
- Smart Mobility: Intermodal transport data insight
- Smart Environment: IoT tags on rubbish bin for real-time response

23 teams, 93 participants

Some of our Recent Data Activities

- Classified Post Hackathon (17-19 Nov 2018)

2nd Classified Post Hackathon held, in collaboration with Data Studio

Date: 17 – 19 Nov, 2018 (3 whole days)

Target: Students and fresh graduates

Attendance: ~110 (28 teams)

- For participants to develop their prototype, enhance their problem solving skills and to learn and meet with technology industry leaders.
- Outstanding participants will be invited by participating companies to attend their internship programmes or gain job opportunities.
- Datasets are offer to participant through Data Studio and the data will stay for use in long run.

Highlights:

- Winner of Insurance Session: Mobile education game.
- Winner of Media Session: Use “Neural Network” to categorize Job Post for better job mapping advice for job seeker.

HKSTP Key Achievements – 18 Years, and 2019

Successfully built partnerships with **65** corporations and public sector: Airport Authority, MTR, Maxim's, HSBC, Wheelock, 3HK, Ocean Park, CLP, etc.

Companies expanded into China, regional and globally, with HKSTP's support

Incubation – Incu-App, Incu-Tech, Incu-Bio...so far

622 Graduated from Incubation Programmes since inception

485 Still in Business

28 4 IPO & 24 M&A

Investment Funds Raised...FY18/19

HKD 18 B
Funds raised by Park companies

Corporate Venture Fund (CVF)...Up to Dec 2018

1 : **13.4**
HKD 50 M : **HKD 670 M**

HKSTP Total Investment Fund (as of today)

HKD 600 M
